

Mel & Enid Zuckerman  
College of Public Health

# Join Us!

A student-led club bringing together those passionate about AI, data science, and public health.

*We create a space to learn, discuss, and collaborate on how AI can solve pressing health challenges.*

Open to all majors and backgrounds – no technical expertise required!

## What We Do

**Workshops & Guest Speakers** – Learn about AI tools, ethics, and health applications.

**Projects & Research** – Collaborate on hands-on projects tackling public health problems.

**Community Engagement** – Explore real-world applications, from local health issues to global challenges.

**Networking & Mentorship** – Connect with students, faculty and professionals in AI and health fields.

## Why Join?

- Build interdisciplinary skills in AI and health.
- Gain research & project experience.
- Boost your career opportunities in public health, data science and beyond.
- Be part of a community shaping the future of healthcare with AI.
